

Ku-BAND UPCONVERTER

ACCVT-LKu-Ex-V31

Sub-rack series

The ACCVT-LKu family of upconverters is designed for the most challenging Ku-band professional & military satellite communication systems (ground, SOTP, SOTM, maritime, etc.). Latest technology is applied to obtain the best power efficiency, phase noise, gain stability and spurs rejection according to MIL-STD-188-164C. The ACCVT-LKu family is a high reliability solution designed for harsh environmental conditions, with every single production unit fully tested in an environmental chamber and delivered with a complete factory acceptance test report.
