

Ku-BAND DOWNCONVERTER

ACCVR-KuL-Ex-V31

Sub-rack series

The ACCVR-KuL family of downconverters is designed for the most challenging Ku-band professional & military satellite communication systems (ground, SOTP, SOTM, maritime, etc.). Latest technology is applied to obtain the best power efficiency, phase noise, gain stability and spurs rejection according to MIL-STD-188-164C. The ACCVR-KuL family is a high reliability solution designed for harsh environmental conditions, with every single production unit fully tested in an environmental chamber and delivered with a complete factory acceptance test report.
